

The island was very big and it had lots of trees on it. the beach had some white sand and it was a very long beach. All of The trees were tall and had green leaves and when it was windy they moved a bit. There was some fruit hanging from the trees and these were oranges and mangoes and coconuts. the sea was wet and blue and it had waves in it. There were no houses on the island so it must have been empty. it was sunny.
