

Impact of Sports Premium 2016 – 2017

What is Sports Premium?

The government is providing additional funding to improve provision of physical education (PE) and sport in primary schools. This funding is provided jointly by the Departments for Education, Health and Culture, Media and Sport and will be allocated to primary school Headteachers.

Schools must use the funding to make additional and sustainable improvements to the quality of PE and sport they offer.

This means that you should use the premium to:

- Develop or add to the PE and sport activities that your school already offers.
- Make improvements now that will benefit pupils joining the school in future years.

In addition to working as a TA in the mornings, our sports apprentice completed sporting interventions with children in lessons who are working below or above national average. • Miss Cox has contributed to the increased enthusiasm of sport across the whole school. • Miss Cox helped to train our Young Sport Leaders who organised daily activities on the schoolyard and new MUGA. • Surveys indicate that the advent of the new MUGA in the Spring Term of 2017 doubled the rate of active, physical participation. | £5000 |
| Coaching and Support | <p>Staff surveys indicated that dance was the area in which they had least confidence in teaching. Therefore, six classes benefitted from sessions working with a specialist dance coach. 100% of staff surveyed stated that they felt that their confidence had “increased” after completing these sessions.</p> <p>In addition, individualised CPD needs were identified through the thorough analysis of the staff surveys. A variety of different CPD events were attended by teachers in the school who then disseminated the good practice within their phase teams. 92% of staff reported increased confidence and expertise in their designated areas of CPD following attending at the Sedgefield SSP courses.</p> | Included in Enhanced SLA - £4000 |

The subject coordinator has developed systems in the tracking and monitoring pupil progress throughout the year, which has enabled her to accurately identify students that require interventions.
